SPRINT BACKLOG

Basically, for current sprint the backlog was about setting a login system and testing the report generator along with considering logic of prohibiting multiple voting

Create sketch of login page

Write login page

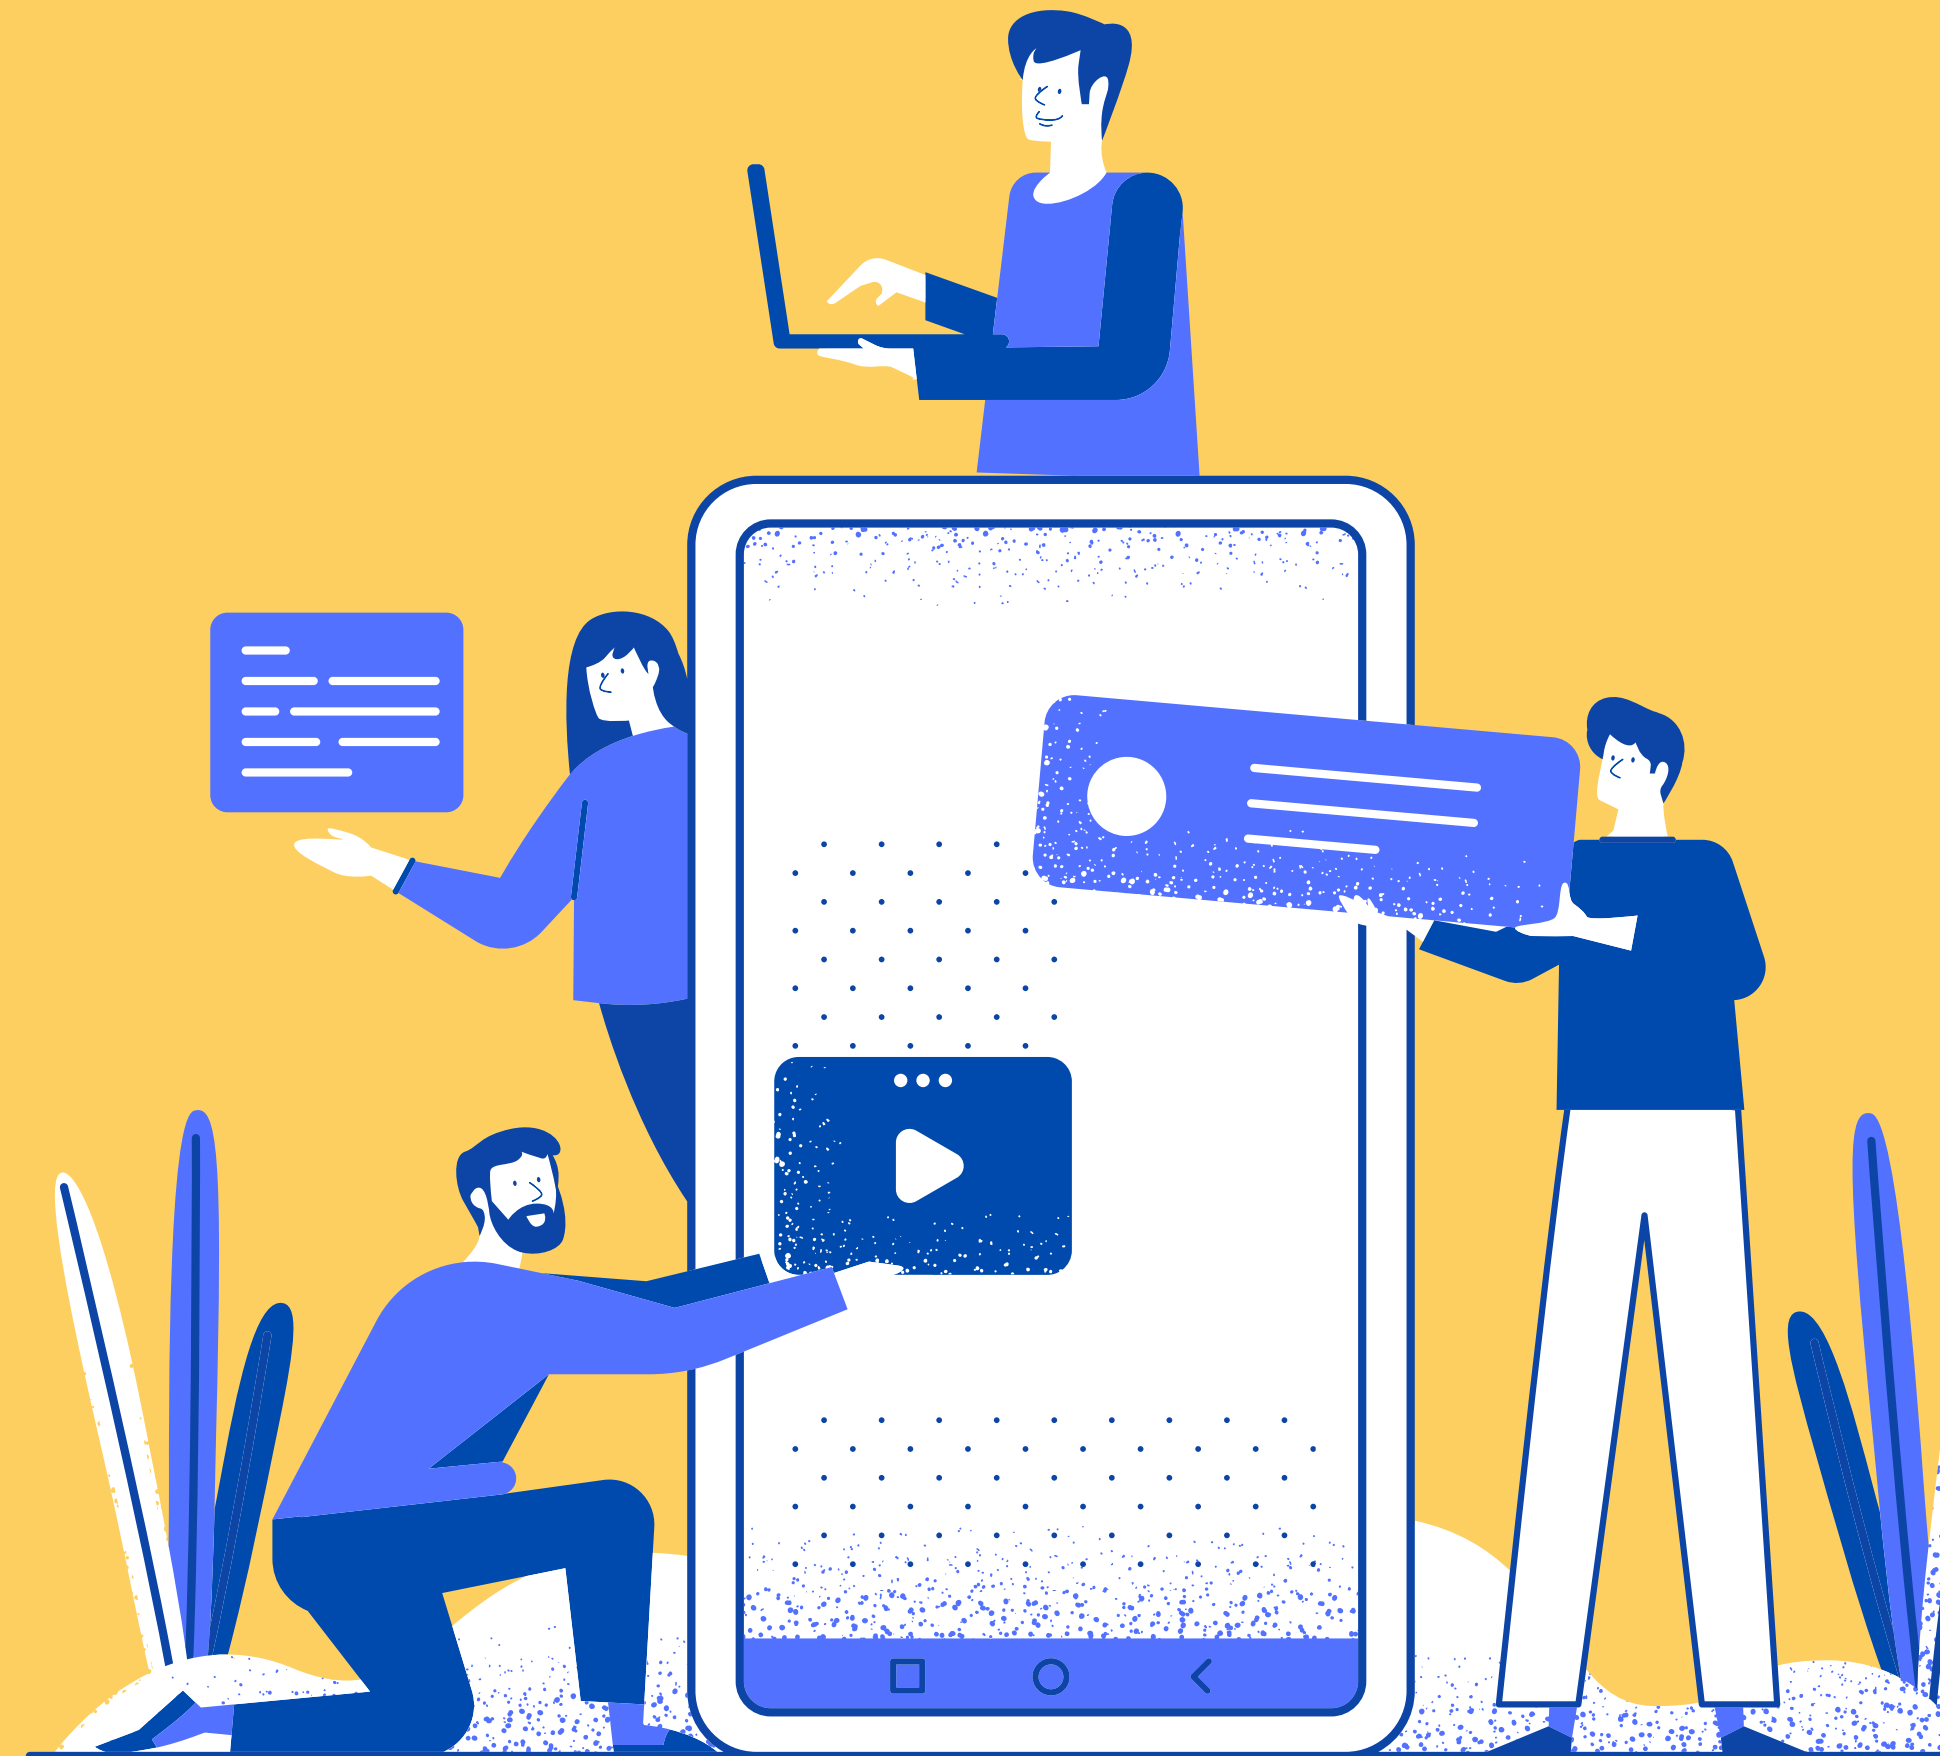

Write page for passed surveys

Restrict surveys only to logged-in students

Add frontend and styles for surveys

Generate plots for each closed question

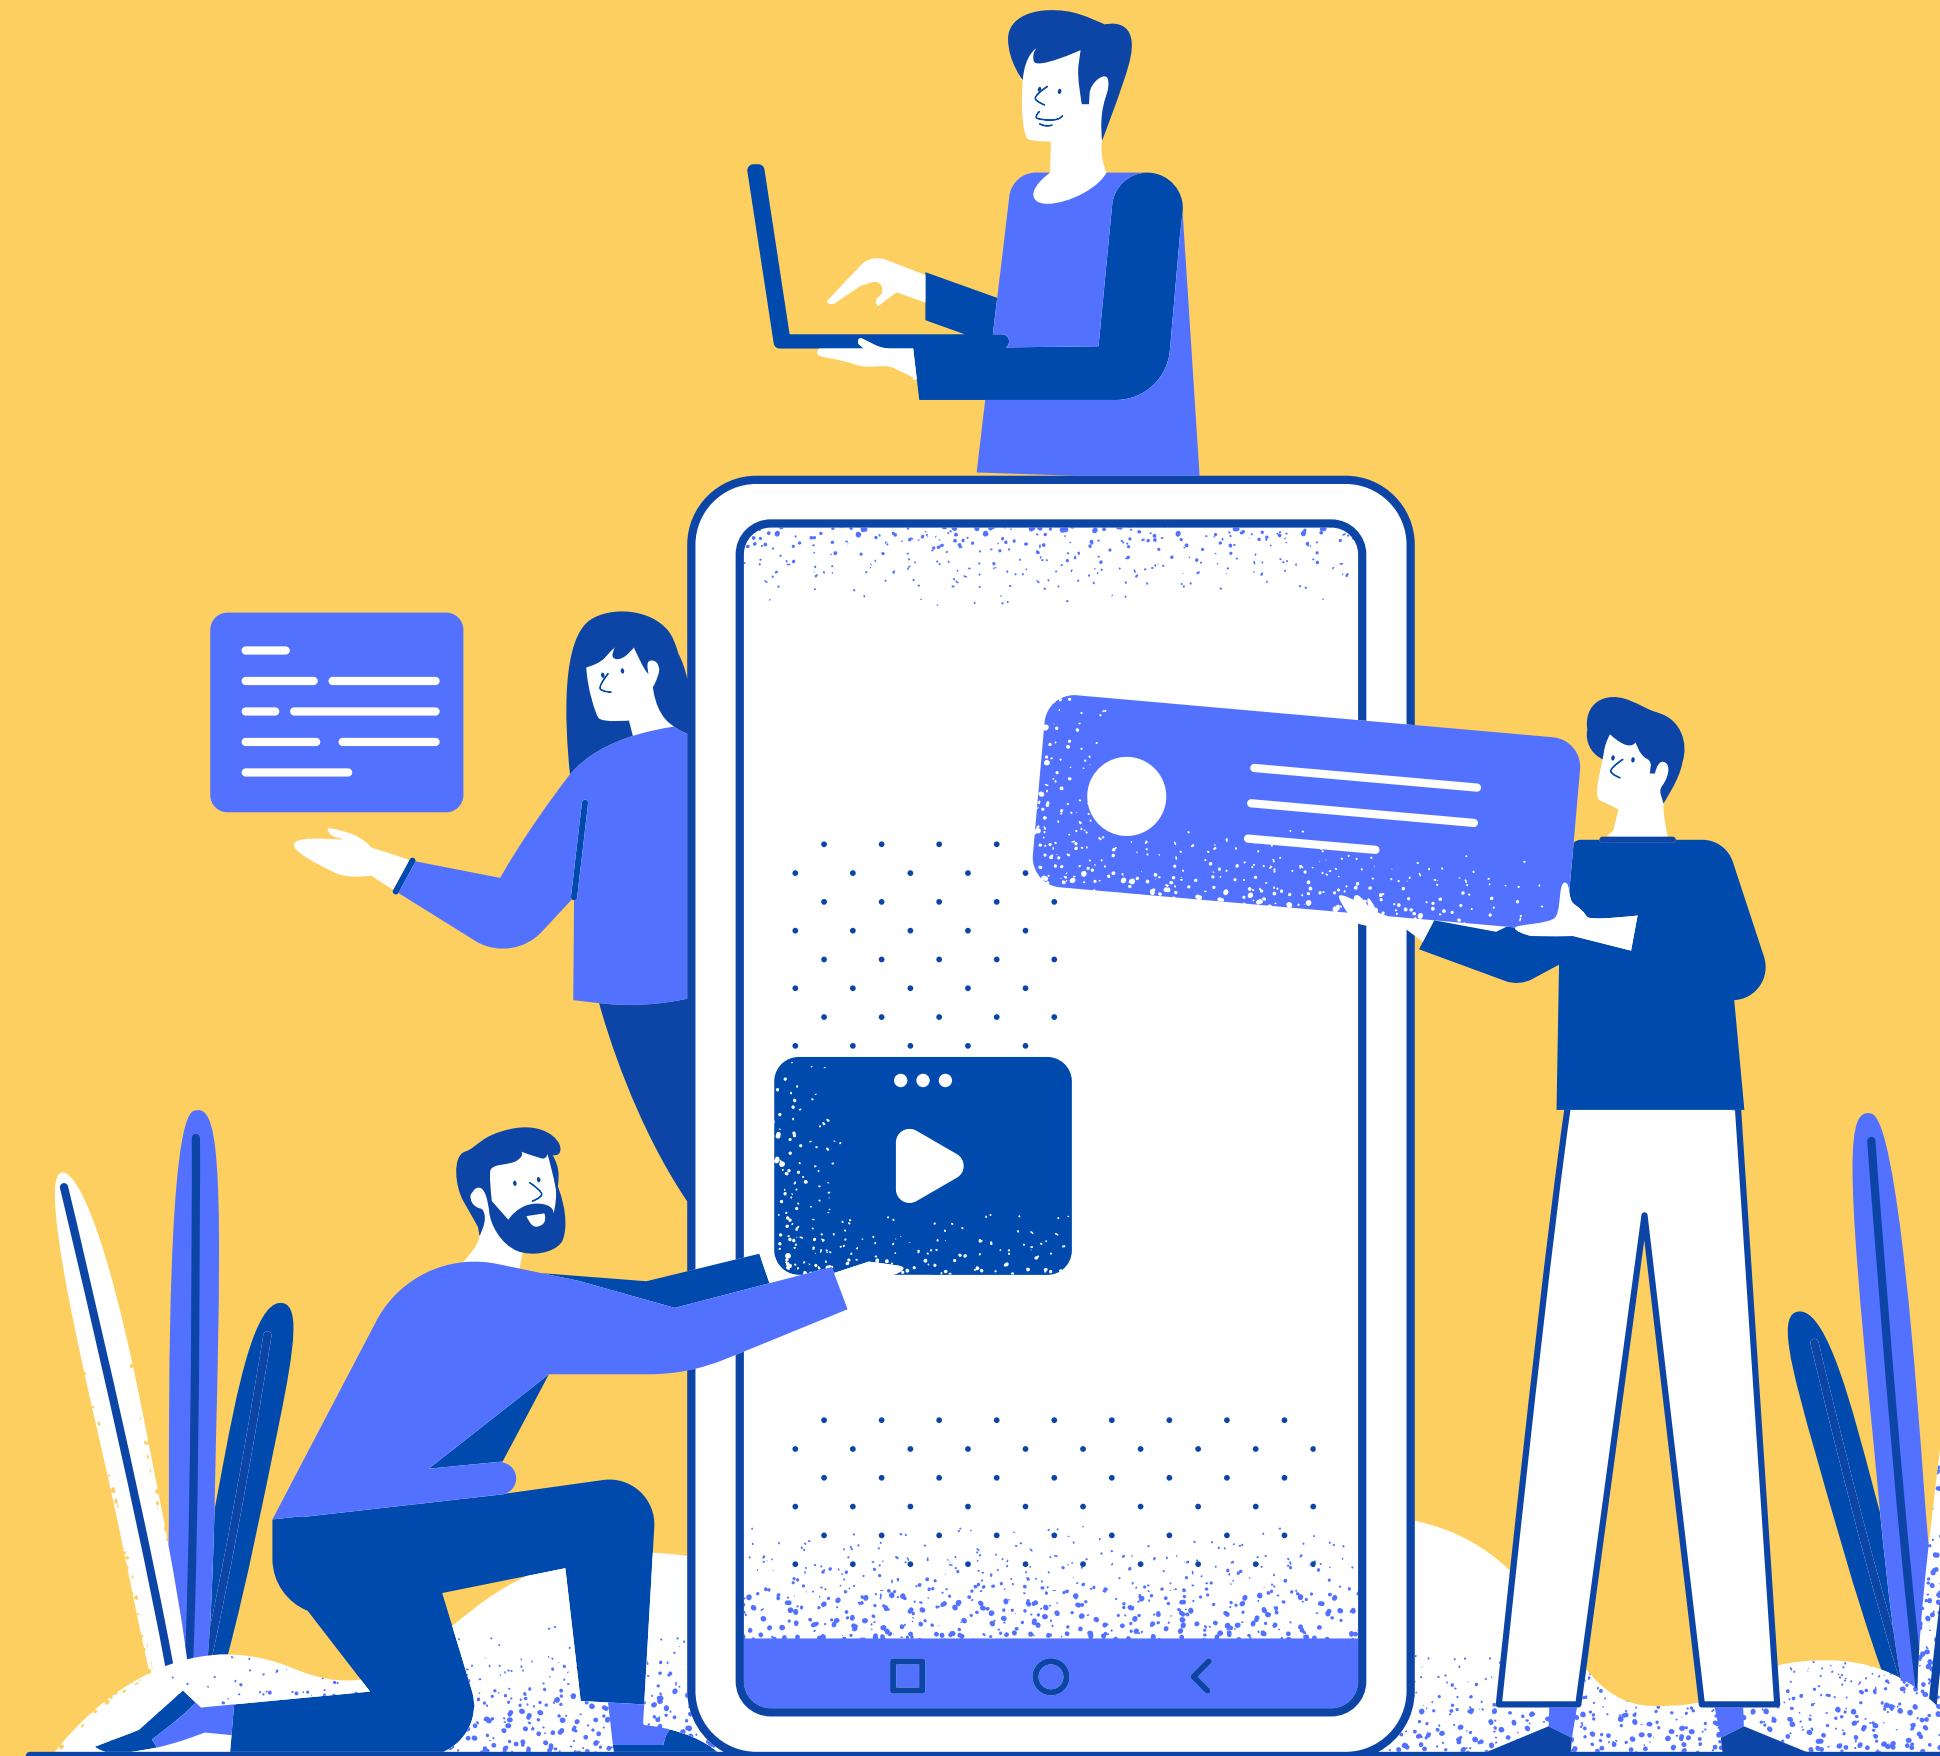

Export overall results as pdf

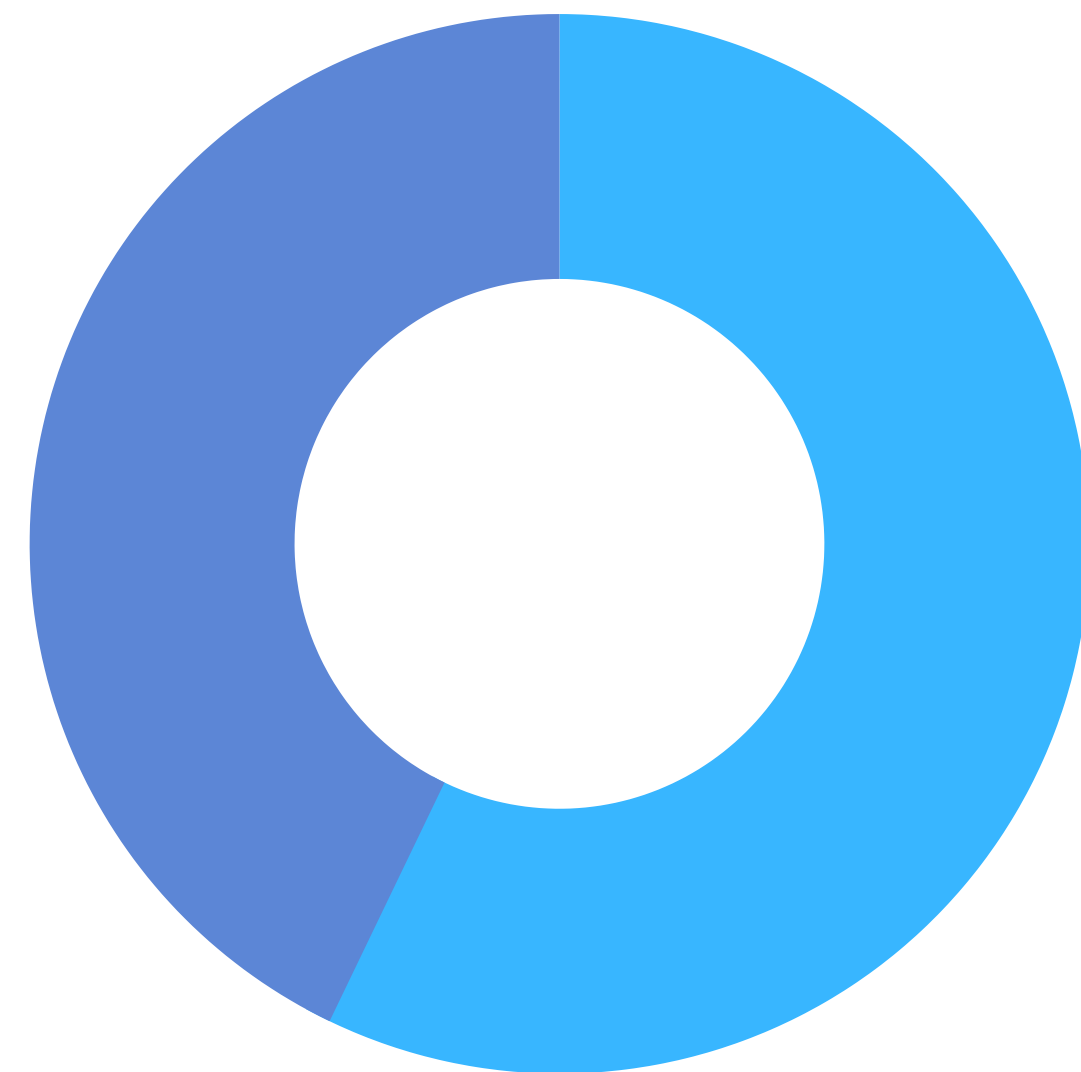

**Stakeholder's approval was
obtained**

- ✓ Create sketch of login page
- ✓ Write login page
- ✓ Write page for passed surveys
- ✓ Restrict surveys only to logged-in students
- ✗ Add frontend and styles for surveys
- ✗ Generate plots for each closed question
- ✗ Export overall results as pdf

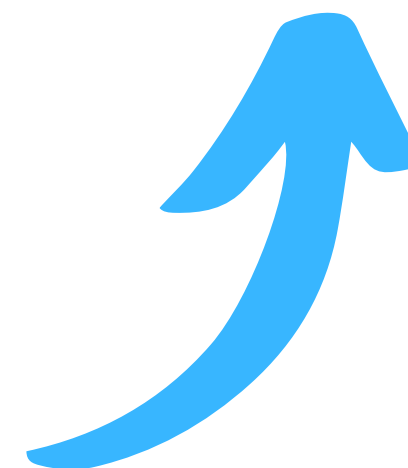

42.9%

57.1%

*Percentage of
accomplished tasks*

Demonstration

ADDITIONAL INFORMATION

The team held 3 scrum meetings during the sprint

There was held a special meeting with stakeholder to get the confirmation of sprint backlog
